# Reform of AITI Qualification Continues – Be Part of Our Lecturing/Examining Team

The past year has seen major enhancements to the nationwide AITI programme, building on a qualification that already has an outstanding reputation in the market place. We introduced significant reforms to the course programme accompanied by a completely rewritten and redesigned set of course materials. To provide greater flexibility to students and employers we have launched a summer course option.

This programme of reform continues into the coming year with the development of advanced professional skills workshops where students will be taken through real-life commercial case studies in small group tutorials. The aim of the professional skills workshop is to ensure that students are

equipped with the expanding skill set required of an AITI Registered Tax Consultant. Students will be assessed appropriately on the professional skills acquired by means of a home assignment.

To strengthen our existing team of excellent contributors we welcome applications for roles within our lecturing and examining team.

To ensure the highest standard is achieved we provide full training and support to our team\*.

Applicants must hold the AITI qualification and have at least 2 years relevant post qualification experience. Experience and/or an interest in education is desirable.

Interested applicants should send their CV and a short cover letter to  
Amanda O'Reilly at [aoreilly@taxireland.ie](mailto:aoreilly@taxireland.ie)

\*Involvement in our School of Taxation counts towards fulfilling annual CPD requirements.
